

Ecessa Insight Release Notes

Version: 3.0.1

Release: 2017.01.16

Revision 1.0: 2017.01.16

Improvements

Monitoring

- Monitoring information will be retrieved after the initial page load when viewing the Dashboard page

Changes

Monitoring

- The account administrator must have the ability to set which users are allowed to receive site alerts

Description

If the site alerts for a user are disabled then they will not receive any site based alerts such as monitoring.

Fixes

Monitoring

- The monitoring status that is displayed on the Ecessa Insight could periodically show **DOWN** when the site is actually **UP**

Description

This would only affect devices that are on versions that are before 10.6.6

Cloud

- Cloud GUI does not show a scroll bar for content that is wider than the screen

Dashboard

- Monitoring tooltip is cut off on right side of the page
